

## **Registering for a Program**

If you have not already registered, please remember to do so ASAP. You must register for the 2019 Women's Slo-Pitch program. This allows us to view who is actually participating this season, and serves as a liability waiver. If you already have a household account with Saco Parks and Recreation, you will log into this account and then register for the specific women's softball activity. The household account alone will not be enough to consider you "registered." Please also update any new contact information that may have changed since last year.

Updating your texting notification:

- Log into your account
- Click on Add/Edit Members
- Click on your name
- Scroll down to the bottom & find the Mobile Notification area
- Check the box to receive the text alerts
- Add your cell phone number & carrier

We will use this feature to update teams on any last minute cancellations and announcements.

If you do not have an account yet, please visit [www.sacorec.com](http://www.sacorec.com) to create a household account. From there you will be able to register for the Volleyball Program. Reminder: the registration brings you to "check-out" but you will not have to pay any fees when registering.
